

Annex 4 (to the Migration and Displacement Programme Grant)

Maximum Remuneration 2023

Introduction

Legal entities that (wish to) receive a grant charged to the state budget of Foreign Trade and Development Cooperation of the Netherlands are subject to the requirement of a maximum salary for their directors and managers. This requirement forms an integral part of the threshold criteria that are tested upon receipt of every grant application. If this criterion is not met, the grant application is rejected.

The ceilings apply at all times to the applicant/grantor and, if required in the relevant grant policy framework, to co-applicants as well. Thereby, a specific cap applies per country of establishment of the legal entity in question, which is updated annually. This appendix contains a total overview of all ceilings per country for grants applied for in 2023.

For further information on this threshold criterion, please refer to the relevant grant policy framework under which grant funding is requested.
