

Does my employer
take care of my Dutch
health insurance?

No, you need to take care
of this yourself. Do you
need any help or advice?

Mandatory Health Insurance

Anyone who resides or works in the Netherlands must have an insurance to cover medical expenses. For this health insurance you have to enroll with a health insurer.

Mandatory Health Insurance and Supplementary Insurance

The health insurance consists of a mandatory health insurance and an optional supplementary insurance. There are more than forty health insurers (including labels) that offer mandatory insurances as well as optional supplementary insurances.

Choose your insurance and enroll with a health insurer

Choose your health insurance from one of the health insurers. Fill out the application form and send it back. Once you have received a '**polisblad**' and a health insurance card, the enrollment is complete and you are obligated to pay the agreed premium.

If you have any further questions that you wish to have answered in English, please call our free number 0800 64 64 6444 (Monday to Friday from 9.00 a.m. to 5.00 p.m.) or visit our website www.zorgverzekeringslijn.nl/coming-from-abroad for more information.
